MAIN GOAL

The general objective of the project is to develop the social economy in the urban areas of the Central Region, ensuring labor market integration for vulnerable groups.

By establishing 34 new social enterprises in the urban areas of the Central Region and creating 136 jobs within these enterprises, the project will provide opportunities for job seekers, unemployed individuals, long-term unemployed persons, people from disadvantaged groups on the labor market, and inactive persons. In this way, it will contribute to combating poverty and reducing social inequalities in the areas where these enterprises will operate.

SPECIFIC OBJECTIVES

- Establishment of 34 new social enterprises in the urban areas of the Central Region
- Creation of 136 new jobs within these enterprises
- Entrepreneurial training for 132 target group members
- Selection and funding of the 34 most viable business plans
- Support for launching the 34 enterprises and sustaining the new jobs
